

**NWCG CURRICULUM MANAGEMENT ISSUE PAPER #101**  
**REASSIGNMENT OF COURSE NUMBER FOR FIRE INVESTIGATION COURSE**  
**February 5, 2009**

**BACKGROUND**

With Issue Paper #83, the number for the FI-310, Wildland Fire Investigation: Case Development course was removed because the course did not support a position in the PMS 310-1. The oversight and maintenance for the course was left solely with the Wildland Fire Investigation Working Team (WFIWT).

**CURRENT STATUS**

During the latest revision of the PMS 310-1, May 2008, the Wildland Fire Investigation Team Member (INTM) position was added. The required training for this position is FI-310, Wildland Fire Investigation: Case Development.

**RECOMMENDATION**

Reassign the FI-310 course number to the Wildland Fire Investigation: Case Development course. Oversight of the course will be shared between the Training Working Team (TWT) and the WFIWT. Maintenance of the course will be addressed in the NWCG TWT Curriculum Maintenance Plan.
