

NWCG CURRICULUM MANAGEMENT ISSUE PAPER #102
MODIFICATION OF COURSE NAME FOR
P-301, WILDFIRE PREVENTION PLANNING
February 5, 2009

BACKGROUND

Over the past several years the Wildland Fire Education Working Team (WFEWT) has had several discussions with the Training Working Team (TWT) to arrive at a plan for updating the prevention curriculum. The TWT approved the direction the WFEWT is headed with the understanding that all prevention course development and maintenance is the responsibility of the WFEWT. The TWT will still have the certification and curriculum oversight responsibility.

CURRENT STATUS

The development of the new P-301 (currently Wildfire Prevention Planning) course is nearing completion. This course is being developed by a contractor under the direction of the WFEWT with input from the NWCG Standards Unit. The course name, Wildfire Prevention Planning, needs to be updated. The course is being designed to include the prevention planning aspects of the old P-301 as well as new content related to this field of study and the title reflects the new content of the course.

RECOMMENDATION

It is the recommendation of the WFEWT and NWCG Training that the name of the course be revised to **Fire Prevention Education 2**. This name will better align the course as the second in the fire prevention training progression. The course designator, P-301, will remain the same.

APPROVED / **DENIED**
