

NWCG CURRICULUM MANAGEMENT ISSUE PAPER #75
INCLUSION OF I-401 INTO I-400
August 26, 2005

BACKGROUND

Issue Paper #60, approved in May 2004, recommended the change from the current modular format to a standard NWCG course format. It also stated that I-401, Multi-Agency Coordination and I-402, ICS for Executives would remain as stand alone courses (see IP#60 for further explanation).

CURRENT STATUS

After further development of the ICS curriculum the project team is in agreement that the I-401 course should be absorbed into the I-400 course.

I-402, ICS for Executives will remain as a stand alone course and is a candidate for web-based training.

RECOMMENDATION

Approve the absorption of I-401, Multi-Agency Coordination into I-400, Advanced ICS. Delete I-401 from the curriculum upon completion of the new I-400 course.

ACTION REQUIRED

Approval from the TWT for the above recommendations.
