Fire Shelter System Website 100108.doc

---

**SUBJECT: SAFETY ADVISORY: Fire Shelter System website**

---

The NWCG – Fire Shelter Task Group is pleased to announce the launching of a new website. The purpose of the Fire Shelter System website is to offer a centralized consistent communication site that provides information to meet the program support and safety needs of the agencies and firefighters. The website includes ongoing information, education, and life-cycle planning on the fire shelter program.

The website is now available at <http://www.nifc.gov/>. This address will get you to the National Interagency Fire Center Page and then just click on the Fire Equipment icon. If you have any questions, please contact your agency representative on the Fire Shelter Task Group.
